

Technical Report TR-021

ADSL Forum Recommendation for ATM Layer of ADSLs

December 1998

Proposal

In the interest of promoting interoperability, the ADSL Forum primarily devotes its time, resources, and promotional efforts to systems conforming to the applicable ADSL Forum Recommendations.

The ADSL Forum recommends that ADSL systems comply with ITU-T Recommendations I.150 (ATM), and I.361 (ATM layer). Compliance with I.363.5 (AAL5) is recommended; support for other adaptation layers, as defined in I.363.1 and I.363.2, is encouraged.
